

[Assistant/Associate] Professor
Department of Pathology & Laboratory Medicine
University of British Columbia & BC Children's Hospital
Vancouver, BC, Canada

[Program Name] and the Department of Pathology & Laboratory Medicine, University of British Columbia invite applications for a scientist experienced in _____. Applicants must have a demonstrated track record of research excellence and will be expected to establish an independent research program and to compete nationally and internationally for operating grants. The position will be at the (Assistant/Associate) Professor level, and the successful candidate will have an (MD) and/or PhD (or equivalent). Applicants will have excellent communication skills and will be expected to contribute towards the total teaching allocation required by the Department. The contribution may include teaching of medical students and/or graduate students and may include a small number of lectures in his/her particular area of interest.

We seek a basic or clinician scientist with research interest in _____. Possible specific areas of research could include _____. An in depth understanding of _____ would be a significant asset. The selected candidate will join our rapidly growing Program located at _____. [Description of the program], in which scientists and physicians are committed to excellence. The selected candidate will benefit from shared infrastructure and will be expected to work in a team environment.

The successful candidate will be appointed as a [Hospital site rank], and a full-time faculty member of UBC Department of Pathology & Laboratory Medicine in the Faculty of Medicine. Salary and rank will be commensurate with qualifications and experiences. This is a full time grant tenure (track) appointment. UBC hires on the basis of merit and is committed to employment equity. We encourage all qualified persons to apply; however, Canadians and permanent residents of Canada will be given priority.

The anticipated start date for the position is before _____. Closing date for applications is _____. Applicants should submit a covering letter, their curriculum vitae, a summary of their research program, and names of three individuals willing to provide letters of reference to:
