

SHORT NEWS

PATRICK W. DOYLE

Dr. Doyle has stepped down from his role as Program Director: UBC Medical Microbiology Residency Program after 14 years.

He also has retired from VGH effective January 28, 2016 and started working at BCCDC.

We thank Dr. Doyle for his many years of service.

LIFE BEYOND MEDICINE | PARENTING DURING RESIDENCY: MEET OUR NEWEST & CUTEST 'RESIDENTS'

Lawrence Lee's daughter, Lillian Lee, born on Nov 22, 2014.

USCAP 2016 (SEATTLE); MARCH 12 – 18, 2016

105TH ANNUAL MEETING

NEXT GENERATION LEARNING

March 12-18
Seattle, Washington

Yazeed Al Welaie (PGY3); Maziar Riazzy (PGY4 – Chief Resident); Ema Todorovic (PGY3); Lawrence Lee (PGY4 – Chief Resident); Noorah Al Madani (PGY4)

Every year the Academy strives to improve the content, diversity and delivery of educational programs and current translational research utilizing a panorama of formats designed for personalized learning.

We are conscious that learners prefer methodologies that deviate from traditional classroom/lecture presentations; we have

incorporated a variety of interactive programs for the 2016 Annual Meeting and have planned for derivative digital assets to perpetuate learning after the meeting concludes. Our brand is re-invigorated and our approach is energetic. By attending the Annual Meeting in Seattle, WA, you can expect a heightened USCAP experience that will take you to the next dimension of being a better pathologist.

Elyse and Eric Bol celebrated the birth of their first child, Gaius Nathan Bol, on Dec 1st 2015. He's growing quickly and keeping mom and dad very busy at home.

PHYSICAL WELLBEING OF RESIDENTS

In order to promote the physical wellbeing of residents a weekly soccer game has been launched by Dr. Maziar Riazzy (PGY4 AP resident). After hours of intense intellectual activities such as freshing, frozen sections, grossing, pushing glass, crafting final reports, pathology residents rise to the occasion and burn some ATPs in a different way. Due to the popularity of the initial round there are plans to continue the league during the summer at an outdoor pitch. Residents thank Drs. Tony Ng and Jason Morin for their attendance. Dr. Riazzy hopes that in the near future, residents can have a residents vs attendings match and he invites all interested pathology people at different sites to join in and have fun while engaging in intense interval workout.

Yazeed Al Welaie
(Anatomical Pathology, PGY 3)

First row: Yazeed Alwelaie, Maziar Riazzy, Dr. Jason Morin Second row: Daniel Owen, Tyler Verdun, Kenry Chiu, Nisreen Mohammad, Felix Kommoss (visiting student from Germany)

RESIDENTS' GRADUATION DINNER

The UBC Pathology Residents' Graduation Dinner will be held on Thursday May 26th at the Royal Vancouver Yacht Club. There will be 7 residents graduating this year: 3 from Anatomical pathology (Brandon Sheffield; Susanna

Zachara-Szczakowski, and Gang Wang), 2 from Hematopathology (Shadhiya Al Khan and Eman Khan), 1 from General pathology (Tyler Verdun) and 1 from Neuropathology (Veronica Hirsch-Reinshagen). Three fellows are also completing a 1 year

fellowship. 2 in Breast pathology (Joyce Leo and Mehdi Agoumi) and 1 in Hematopathology/Transfusion Medicine (Nick Sunderland).
