

DEPARTMENT of PATHOLOGY & LABORATORY MEDICINE

ROUNDS

Dr. Benjamin J. Wilkins, MD, PhD

visiting from CHILDREN'S HOSPITAL OF PHILADELPHIA

Tuesday, November 6th, 2018

8:30 to 9:30 am

BC Children's Hospital, Room 2J38

“NORTH AMERICAN INDIAN CHILDHOOD CIRRHOSIS:

A unique model for congenital biliary disease.”

LEARNING OBJECTIVES:

- (1) Illustrate how abnormal ribosome biogenesis and function leads to pediatric disease.
- (2) Demonstrate how zebrafish can be used as a model for pediatric liver disease.
- (3) Illustrate the link between abnormal ribosome biogenesis and cell cycle arrest.

If you would like to meet individually with Dr. Wilkins, please email Dr. Jeff Terry at Jefferson.Terry@cw.bc.ca.
